Guitar Chords for Tamil Christian Songs

This file involves chords arrangements for Tamil Christian songs with words written in English (Transliterated). Over the past few years I had been posting chords arrangements for common Praise and Worship songs in English and Tamil at my **Perspectives Blog page** (***Web link:*** http://arunthamban.blogspot.com/). The chords for these songs are arranged based on our singing style in small Christian groups and gatherings. More recently, I have started using transliteration software to type out Tamil songs and reverse transliterate them back to do this file with Tamil Transliterated songs. This file is the transliterated version of Tamil Christian Songs file that I have uploaded in my blog page and will be useful for those who may find it difficult to read in Tamil. This is being done here with a hope and prayer that these arrangements may be a useful resource for young musicians or worship leaders to do their very best with their talents glorifing God's Holy Name in churches and small groups.

This work needs consistent and continuous effort as there are so many songs out there and I am hoping to continue whenever I find time to add new songs with chord arrangements. As you may notice, there are already many songs with just words for which I am yet to add chord arrangements. The updates to this file and other related files will be communicated through the Perspective Blog Page.

Feel free to email me if you have any questions regarding chord positions in guitar for the songs in here. Also, if you want to see any specific song with chords in here, feel free to let me know about that. My email address is arunthamban@hotmail.com.

The format of this file is is similar to that I have used in the Tamil and English songs file which is available at the following link: https://dl.dropbox.com/u/75286846/Music/Songs.pdf. I am just giving chords over the lyrics of the song.

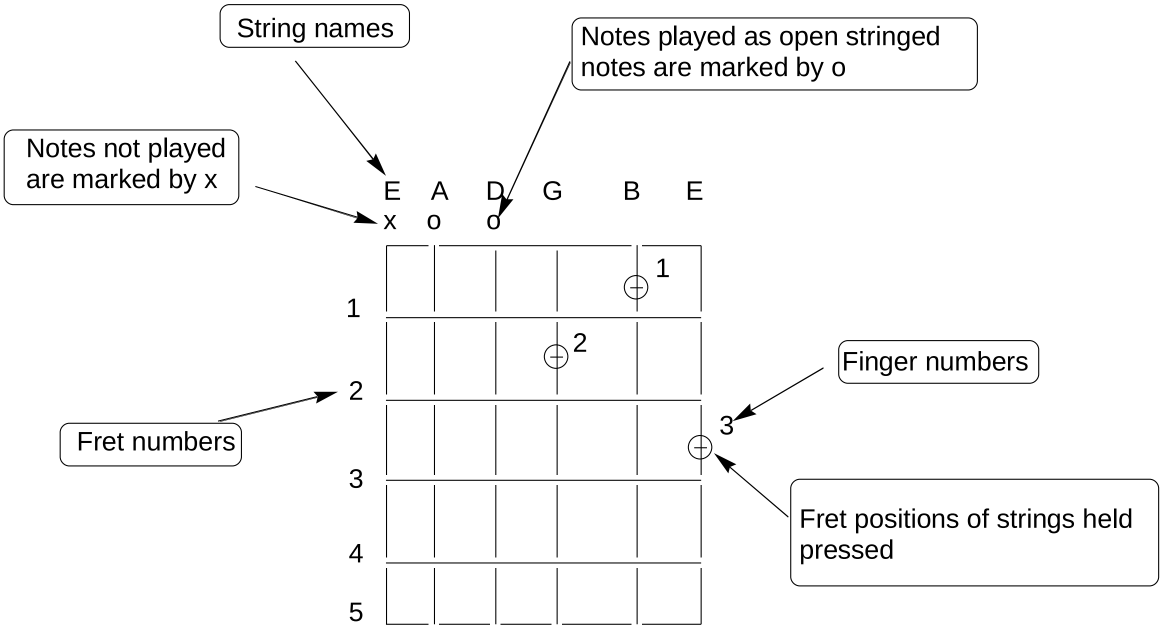
To facilitate a better understanding of the scales and chords, I have also put together a file (Music.pdf) trying to explain how I arrive at different chords based on my own understanding. This file is available at the following link:

https://dl.dropbox.com/u/75286846/Music/Music.pdf

I am not giving the chord position diagrams for simpler chords (such as the major, minor and seventh chords) which many of us already know. However, I am giving chord position diagrams for other chords that I have used which may not be familiar to some of us.

Two types of chord diagrams are involved in these files. The older chord diagrams involve fret numbers at the left of each diagram, string name at the top, notes not played (x)/ open notes(o) played below the string names, fret positions of strings to be held pressed by fingers and then the finger numbers used to hold the notes.

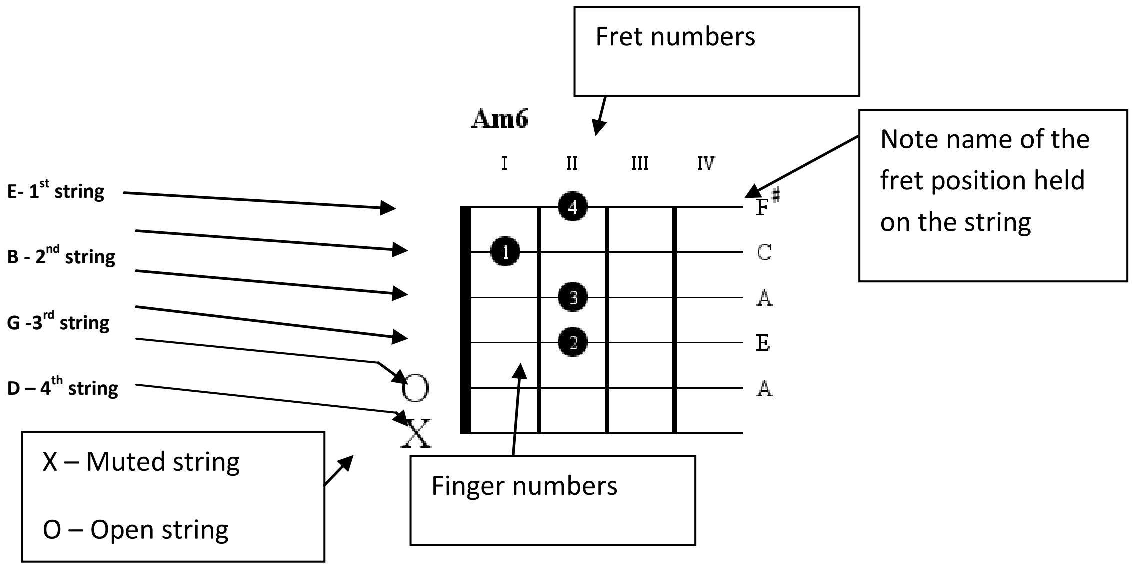
Examples:



Finger Numbers:

1 - Index finger; 2 - Middle finger;
3 - Ring finger; 4 - Little finger

More recently, I have started using software for chord diagrams. This software involves a diagram with the 6 horizontal lines each representing a string starting with the string of higher E tone of the standardly tuned guitar (1st string or the thinnest string) on top proceeding downwards and ending with the string of lower E tone (6th string or the thickest string). The vertical lines in the diagram represent the frets starting from the first fret on the left. The fret numbers are represented by Roman numerals on the top while the tonality of the string held by the fingers are represented on the right side of the diagram. The finger numbers are represented directly in the fret position. X represents muted string (that will not be played) while O represents any open string played in the chord.



In addition to this file, I have also started putting together a file with chords written over transliterated words for songs of few common Indian languages (Transliterated Songs file). This may be helpful to people who want to learn chords for other regional Indian language songs. This file is also available at the blog page and here is the link to that file:

https://dl.dropbox.com/u/75286846/Music/Transliterated%20Songs.pdf

As time permits I am trying to add Youtube video links for some songs that show how the chords for these songs can be played. The links if available can be found below the song title.

“Let everything that has breath praise the Lord, Praise the Lord”

Psalms 150:6

Songs List

1. Aanandhamae Jeyaa Jeyaa (Key: D) 9
2. Aaraadhipom Come Bless (Key: E) 10
3. Aaradhanai Aaradhanai (Key: Dm) 11
4. Aaradhani Naayagan Neerae (Key: Dm) 12
5. Aasirvadhipaar Yesu (Key: E) 13
6. Aathumamae En Muzhu Ullamae (Key: C) 16
7. Aaviyaana Engal Anbu Dheivamae (Key: D) 17
8. Aaviyaanavarae Anbin (Key: G) 20
9. Aaviyaanavarae Anbu Nesarae (Key: D) 21
